

同志社大学ナノサイエンス研究センター講演会

2009年7月24日(金) 至心館SC622

14:30-15:15

Prof. Richard H. Fish (University of California, Berkeley, USA)

*Protein Engineering of Cytochrome P450 Enzymes for Molecular Recognition of Biomimetic 1,4-NADH Analogs, and Use of [Cp*Rh(bpy)H](OTf) for Co-factor Regeneration*

15:15-16:00

Prof. Thomas V. O'Halloran (Northwestern University, USA)

Adventures in the Chemistry of Life Processes: A New Target for the Molybdenum Sulfide Anticancer Drugs

16:00 -16:45

Prof. Ivano Bertini (University of Florence, Italy)

Metal Ions in Biological Systems

contact: 人見 穰 (内線 : 7437)
